THE JEFFERSON MEDICAL COLLEGE ALUMNI BULLETIN

VOLUME VIII

MARCH, 1954

NUMBER 6

NEW PRESIDENT OF THE ALUMNI ASSOCIATION

Hayward R. Hamrick, M.D., was born in Buckhannon, West Virginia, the son of Rev. and Mrs. Charles E. Hamrick. He attended the public schools of Buckhannon, entering West Virginia Wesleyan College in 1925.

During his four years at Wesleyan, where he was graduated in 1929 with the A.B. degree, Dr. Hamrick was active in campus affairs and in college athletics. He attended the law school of the University of Kentucky, Lexington, Kentucky, for summer sessions but, electing medicine as his chosen career, he was admitted to The Jefferson Medical College of Philadelphia in 1931.

Dr. Hamrick was awarded his M.D. degree in 1935. He served a two-year internship in the Jefferson Medical College Hospital, following which he was made the hospital's Chief Resident Physician, serving in this capacity until 1938. At this time he was appointed Director of the Curtis Clinic of Jefferson Hospital.

In 1942, The Board of Trustees of the Jefferson Medical College and Hospital appointed him Medical Director of the hospital and Secretary of the Board.

The Board of Trustees, recognizing his long term of active participation in the management of the professional and business affairs of the institution, elected Dr. Hamrick to the newly created position of Vice President of the corporation in 1949. In addition to these major administrative responsibilities, Dr. Hamrick has also been consultant in internal medicine in the hospital and on the faculty of the medical college.

Dr. Hamrick was awarded the honorary degree of Doctor of Laws by West Virginia Wesleyan College in 1951.

In 1950, James H. Duff, Governor of Pennsylvania, appointed Dr. Hamrick as a member of the Board of Directors of the Eastern Pennsylvania Psychiatric Institute, the new large hospital devoted to research in fundamental causes of mental disease. He is a member of the Board of Directors of the Children's Heart Hospital of Philadelphia, and of the Hospital Council of Philadelphia. As a member of the American College of Hospital Administrators, the Alpha Kappa Kappa medical fraternity, the Philadelphia County Medical Society, and other medical and social societies, Dr. Hamrick has been active in civic agencies and community medical affairs. He is a member of the Racquet Club and Philadelphia Country Club.

Dr. Hamrick became a member of the Executive Committee of the Alumni Association in 1939 and has served on many of its committees.

During Dr. Hamrick's administrative period the Jefferson Medical College and Hospital have expanded to include other hospitals and institutions and formed affiliations which make it recognized as one of the leading medical centers.

Dr. and Mrs. Hamrick, the former Kathryn Mae MacBerty of Philadelphia, have two children, Joanne 14, and Hayward, Jr., 11, and have their home at Penn Valley, Pennsylvania.

HAYWARD R. HAMRICK, M.D.

My dear Fellow Alumni —

It is a great privilege to send you greetings from the officers and members of the Executive Committee.

We are all aware of your great loyalty and your keen interest in the affairs of Jefferson. The Executive Committee will make every effort this year to keep you as fully informed as is possible. We welcome requests for speakers for your meetings, your letters of comment and criticism, and your personal visits to the school.

This should be a year of great activity. With the expansion of the research facilities, the opening of the new hospital addition, the modifications of the curriculum, there should be areas of interest for every alumnus.

The whole problem of education in America is undergoing very careful appraisal, and medical education is receiving particular analysis. During this period our Alma Mater will require the complete loyalty and support of each of us and the very careful consideration of all the problems involved. I am sure that our organization will measure up to each new responsibility and on each occasion as may be required.

I am genuinely aware of the great responsibilities which are Jefferson's and in expressing my appreciation of the election as your president assure you of my earnest desire to make this a most successful year for our Alma Mater.

Sincerely yours,

Hayward K. Starnick

March 3, 1954

President

Dinner-Annual Meeting February 4, 1954

CARROLL R. MULLEN, M.D., '26
Presides at the Annual Meeting, February 4, 1954

REPORT OF THE RETIRING PRESIDENT

Alumni of "Old Jeff" continued to prove their affection and loyalty to the College during the past administrative year. During this time, there was marked the era in which the first Million Dollars had been donated by Graduates of this institution in a period extending from 1922.

Five new chapters of the Alumni Association were organized — in the Washington, D. C. area, Lancaster, Pa., State of Florida, Northampton County and Williamsport, Pa. The chapters in Harrisburg and in the State of Delaware were reconstituted.

At the annual Alumni banquet held in June, gavels were presented to all living past presidents of the Alumni Association. These gavels were engraved as a memento of their year of service. Silver anniversary medals were presented to two Trustees, Mr. Percival E. Foerderer and Mr. Lessing J. Rosenwald, in commemoration of twenty-five years of service on the Board of Trustees. Certificates were also given to Dr. Edmund B. Montgomery and Dr. Andrew B. Harbison in recognition of the Seventy-Fifth Anniversary of their graduation from Jefferson. At Commencement an honorary degree was conferred by the College on Dr. Montgomery.

Representatives of the College and the Executive Committee of the Alumni Association were present at all Chap-

ter meetings where they were requested. Your President travelled more than 15,000 miles during his year in office and visited numerous chapters and Alumni groups throughout the country.

At the dinner held in conjunction with the meeting of the American Medical Association in New York City, it was the first occasion in the history of larger Jefferson meetings when wives of the graduates were invited. This was so successful that all similar meetings will be graced by the wives of Jefferson Alumni. The annual banquet will probably continue to be a "stag" affair because of its large attendance.

The Graduate Assembly had more than one hundred Alumni in attendance. A unique feature of this affair was the use of a large television screen in color to present operation and treatment demonstrations. This particular meeting was one of the finest held in this group of presentations for post-graduate instruction to members of the Alumni body.

Dean George Bennett has been most encouraging and of great assistance to the retiring President. Mrs. Melrose E. Weed and her corps of workers in the Alumni Office have been of continued assistance and aid.

Your retiring President is most grateful to every member of the Alumni Association for his loyalty to Jefferson during this year in office. He is especially grateful to all the members of the Executive Committee and most appreciative to the Committee Chairmen who worked so diligently and hard through all various duties throughout the year.

Carroll R. Mullen

DR. MULLEN relinquishes his gavel to the new President,
DR. HAYWARD R. HAMRICK, '35

MR. NORMAN F. S. RUSSELL

The trustees of Jefferson Medical College and Hospital report with deep regret and sorrow that Mr. Norman F. S. Russell, member of the board of trustees, passed away suddenly at his home on February 25, apparently of a heart attack. Mr. Russell's death brings a great loss to the board of trustees and Jefferson, to which he had brought outstanding experience in affairs of higher education as well as business management.

Elected to the board of trustees in October, 1948, Mr. Russell had served on the College Committee of the board, as well as the Finance Committee and Property Committee. He was a trustee of Colgate University for many years having served as chairman of that board. He was graduated from Colgate in 1901 with a Bachelor of Arts degree and received an honorary degree of Doctor of Letters in 1940.

Mr. Russell's home was Neshaminy Hall, Edgewater Park, New Jersey. He had been chairman of the board of United States Pipe and Foundry Company since 1948. He was elected president of the concern in 1923 and served in that post 25 years until he was named board chairman. He had been associated with the company since 1910.

From 1901 to 1909 he was employed with Colgate, Hoyt and Company of New York, bankers and brokers.

Mr. Russell was a director of the Pennsylvania Company for Banking and Trusts, Colgate-Palmolive Company, U. S. Sugar Company, West Jersey and Seashore Railroad, the American Mutual Liability Insurance Company, and other firms. He was a former State Republican committeeman. He was a member of the American Water Works Association, American Gas Association, American Institute of Mining and Metal Engineers, American Iron and Steel Institute, Army Ordnance Association, and the Delta Kappa Epsilon Fraternity.

He also was a member of the Union League, the Racquet Club, Seaview Country Club, Pine Valley Gold Club, City

Mid-Day Club of New York, Mountain Brook Club, Birmingham, Ala., and the New York Stock Exchange.

He is survived by his wife, the former Ella Dewees Eisenbrey, who has been active on the Women's Board of Jefferson Hospital, a son, Norman F., two daughters, Ella King Russell and Grace Felt Russell, and a sister, Mrs. W. C. Carpenter.

1940

RUPERT EMERY KELLY, M.D., Elk County Hospital, Ridgway, Pennsylvania, died on December 15, 1953.

DR. ANTHONY F. DEPALMA, James Edwards Professor of Orthopaedic Surgery.

THE DEPARTMENT OF ORTHOPAEDIC SURGERY

The evolution of orthopaedic surgery as it is known today has been relatively slow. Its greatest impetus occurred immediately following the first World War. However, the trend in this direction was definitely evolving during the later part of the 19th century. The Jefferson Medical College can boast of being one of the first institutions to establish an autonomous department in orthopaedic surgery. Dr.

Oscar H. Allis of the class of 1866, was the first lecturer in orthopaedic surgery. Under the auspices of the General Surgical Department which at that time was headed by the Grosses, he began to teach orthopaedic surgery as a special field of general surgery. He was made Clinical Lecturer of Orthopaedic Surgery in 1883, and continued in this capacity until his resignation in 1891. Dr. Allis was succeeded by

The Orthopaedic Staff. Top Row: Drs. ABRAHAM MYERS, PETER W. ROMANOW, JOHN J. GARTLAND, FRANK A. MATTEI, JOSEPH J. TOLAND, III, Bottom Row: Drs. GERALD E. CALLERY, ARTHUR J. DAVIDSON, ANTHONY F. DePALMA, JAMES MARTIN, RALPH C. HAND.

Dr. H. Augustus Wilson of the class of 1879, who was given the position of Clinical Lecturer of Orthopaedic Surgery and made Clinical Professor in 1892. In 1904, Dr. Wilson was made Professor of Orthopaedic Surgery and continued as such until 1918. During the interval as head of the department, Dr. Allis organized the out-patient clinic which today has grown to become an important facet in the teaching program of both students and residents. The first clinic of this nature was held in the amphitheatre of the old hospital. Associated with Professor Wilson was Dr. James Mann, of the class of 1887, who was also Chief of Clinic until 1896 when he resigned to become Professor of Orthopaedic Surgery in the Medico-Chirurgical College. During these years of Professor Wilson's service, many surgical techniques were developed which have become standard procedures and are still utilized today. These tech-

niques were primarily concerned with the prevention and correction of deformities and the management of chronic bone diseases. Dr. James Torrance Rugh succeeded Professor Wilson in 1918, and he headed the department until 1939. Dr. Rugh graduated from Jefferson in 1892, and continued in the capacity of an Associate in Orthopaedic Surgery at Jefferson Hospital in the department of Professor Wilson. Dr. Rugh was a national figure and a leader in his field. He served in the orthopaedic department of the Army, in the Surgeon-General's Office. While at Jefferson, Dr. Davidson and Dr. Martin were associated with Dr. Rugh. Dr. James Martin succeeded Dr. Rugh in 1939. In 1930, the Chair of Orthopaedic Surgery was endowed by a large sum of money donated in memory of James Edwards, a manufacturer in this city. The chair was now designated the "James Edwards' Chair of Orthopaedic Surgery". From

DR. DePALMA and the resident staff of the Orthopaedic Department. Top Row: Drs. WILLIAM R. DAVISON, JEROME M. COTLER, JOHN G. INGRAM, Drs. ROBERT E. COLCHER. Bottom Row: MURRAY GLICKMAN, ANTHONY F. DePALMA, THOMAS FORKER.

1938 to 1950 the chair was headed by Dr. James Martin. During this period the clinical facilities were greatly expanded in order to meet the demand of the growing out-patient clinic. The first resident in orthopaedic surgery, Dr. Thomas Armstrong, started his training in 1946. As will be noted subsequently this phase of the department has made great strides and has established a nationally recognized resident-training program. Dr. James Martin was succeeded by Dr. Anthony F. DePalma in 1950.

Personnel of the Orthopaedic Department:

Within the past four years five worthy young men have been added to the orthopaedic staff. Three of these men have received their orthopaedic training at Jefferson; all are certified by the American Boards of Orthopaedic Surgery. The addition of these men has made it possible to institute an intensive teaching program for the students of Jefferson in the basic principles of orthopaedics and

traumatology. The active teaching staff comprises Professor Anthony F. DePalma, Clinical Professor Arthur Davidson, Associate Ralph C. Hand, Demonstrator Abraham Myers and Instructors John J. Gartland, Gerald E. Callery, Frank A. Mattei, Peter W. Romanow and Joseph J. Toland.

In addition, the department employs Mrs. M. Del B. Sittel for its editorial and departmental duties and two operating room nurses, Miss Gertrude T. McGowen and Miss Louise M. Lang.

Facilities of the Department:

Since 1950, considerable expansion of the department is evident. In addition to the spacious out-patient department on the 6th floor of the Curtis Clinic, a large general office and a smaller administrative office has been added to the suite. An Orthopaedic Library has been established on

A typical orthopaedic operating scene

whose shelves are found the most authoritative books on orthopaedic surgery and the current orthopaedic journals. This library is accessible to the entire staff and to the students. The addition of this library has been a valuable adjunct to the department

A modern and completely equipped plaster room has been built on the third floor of the old hospital. The close proximity of this room to the orthopaedic wards has facilitated greatly the management of patients needing applications of plaster casts and has relieved pressure on the operating rooms where this work was previously performed. The plaster room is so designed that it can accommodate readily small groups of students for instruction in plaster techniques and for clinical conferences and demonstrations.

At the present time the Orthopaedic Department is

assigned one operating room located on the third floor of the old hospital. Needless to say, this does not meet the demands of the heavy surgical schedules. The administration has recognized this fact and has made provisions for two large operating rooms in the new building which is now under construction. This increase in operating space will help in a large measure to reduce the great number of surgical cases waiting for admission to the hospital.

As will be noted subsequently the Department is actively engaged in many research projects; these projects comprise essentially, investigations in clinical problems and research in the basic sciences. Such a program can only be instituted in a research laboratory equipped adequately. A laboratory has been provided and it has been a great stimulus to the Staff of the Orthopaedic Department to participate in research projects.

Ward and Private Service:

Essentially the ward service comprises approximately 22 beds; this number is far too small to meet the demand for admission. There is always a long list of patients awaiting admission and in spite of the rapid turn-over this list gets progressively larger. It becomes apparent that the aforementioned problem can only be solved by an increase in the number of ward beds. Such an increase is under consideration and it is the hope of the Department that with the completion of the new hospital sufficient additional space will be allotted to the Department. The goal is the creation of a women's orthopaedic ward, a men's orthopaedic ward, a children's orthopaedic ward and a fracture ward. The encouragement and aid given the Department up to this point by the Hospital and College administration

The Woman's Orthopaedic Ward.

The Orthopaedic Department cast room.

leads one to conclude that the aforementioned goal may be attained in the near future.

The census of the private orthopaedic service fluctuates between 24 to 30 patients. The total of the ward and private services not only provides sufficient material to meet the demands of the teaching program but it also has made possible the resident training program now instituted at Jefferson. During the year of 1953, there were 381 admissions to the ward services and 295 to the private service; 566 orthopaedic operations were performed and 383 fractures were treated.

The Men's Orthopaedic Ward.

DR. CALLERY demonstrating an orthopaedic problem to a group of Junior students.

from 1 P.M. to 3 P.M. The patients are processed by the resident staff (each resident has his own clinic) however, there are always 3 and sometimes 4 staff members present who function as consultants and instructors. In addition, patients are assigned to students in groups of 3 and 4 who together with an instructor examine and discuss the orthopaedic problems on hand.

The great variety of the orthopaedic material which flows into the Out-Patient Department has permitted the establishment of several special clinics. Each clinic is under the supervision of a staff member who is especially interested in this particular field of orthopaedic surgery. The Shoulder and Knee Clinics are conducted by Professor DePalma, the Tumor Clinic by Dr. Gerald E. Callery, the Scoliotic Clinic by Dr. John J. Gartland and the Clubfoot Clinic by Dr. Abraham Myers.

Very recently another special clinic has been established, the Hemophilic Arthropathy Clinic. This clinic is under the combined supervision of Professor Leandro M. Tocantins and Professor Anthony F. DePalma. The purpose of this

clinic is to study the pathogenesis of hemophilic arthritis and to evolve suitable methods of management for this crippling entity.

Teaching Program:

An ever increasing effort is made in the Department to teach our students the basic principles of orthopaedics and their practical application. This has been achieved by increasing the hours of instruction, by greater emphasis on bedside teaching and by making instruction to small groups more readily accessible. The institution of this plan has been made possible by the addition to the teaching staff of three young enthusiastic instructors.

Orthopaedic instruction begins in the Sophomore year when with the cooperation of the Department of Medicine, the students, in small groups, are taught the methods employed to examine the musculo-skeletal system and are acquainted with the normal anatomy of this system. In the Junior year, didactic lectures in Orthopaedics and in the diagnosis and management of fractures are given by

DR. GARTLAND demonstrating the technic of aspiration of the knee joint to a group of Junior students.

The library of the Orthopaedic Department.

Professor DePalma. In addition, the third year students in small groups, are given individual instruction in the Out-Patient Department and Fracture Clinics. This course of instruction continues for 3 weeks; special emphasis is laid on methods of examination of the patients, differential diagnosis and methods of treatment of the orthopaedic lesions and fractures most frequently encountered.

In the Senior year the teaching program is intensified still further. An attempt is made to correlate and augment the information stressed in the Sophomore and Junior years. This is achieved by individual instruction at the bedside, by clinical conferences for small groups of students, and by clinical demonstrations to the entire class. The last named demonstrations are held in the clinical amphitheater, one each week for 18 weeks. The students in the surgical block are assigned to the Orthopaedic wards for a 6 week period; it is during this period that bedside instructions and clinical conferences are given.

The rapid turnover on the orthopaedic wards provides ample teaching material; not infrequently cases of significant teaching value on the private orthopaedic service are utilized for teaching purposes. The student is required to follow his case to the operating room where he works as a surgical assistant at the operating table. Here time is taken by the surgeon to demonstrate the pathology found and to elaborate on the surgical technic and methods employed. Finally, during this period of clerkship, the student is shown all the acute fractures that are admitted

to the hospital both on the ward and private services. The immediate pathology and deformity of the fracture are discussed, the methods of reduction are explained (frequently they are performed by the student under supervision) and finally the methods of fixation such as plaster casts or traction are demonstrated. It is the general feeling of the Department that the Jefferson graduate is well grounded in the basic principles of orthopaedics and traumatology and fully prepared to manage intelligently and adequately the entities most frequently encountered.

Resident Training Program:

The orthopaedic resident training program began at Jefferson in 1946 with a single resident, Dr. Thomas Armstrong, who now has a very active orthopaedic practice in Carlisle, Pennsylvania. The following year a second resident, Dr. Glenn Diebert, was added to the staff; he now practices in Reading, Pennsylvania. In 1948, Dr. John B. White was appointed to the resident staff; he is now practicing with Dr. Mumford in Indianapolis, Indiana. With each year there has been a progressive increase in the resident staff. At the present time there are 8 residents receiving orthopaedic training. They are Dr. Thomas Forker (1955), Dr. John Inghram (1956), Dr. Murray Glickman (1956), Dr. Hal E. Snedden (1956), Dr. John J. Dowling (1955), Dr. Chester Eskey (1956), Dr. Gerald Cotler (1957) and Dr. William Davidson (1957); all are graduates of Jefferson.

The nursing staff and social service worker of the Orthopaedic Department. Top Row: MISS ELIZABETH WERNER, MRS. EDITH VOYER, MISS GERTRUDE MCGOWAN, Bottom Row: MISS DORIS L. JONES, and MRS. MAY MATSUMORI.

In order to formulate a well rounded resident training program it has been necessary to solicit the help of other departments and institutions. The American Boards of Orthopaedic Surgery requires a training period of one year in general surgery. Each year, Professor Shallow and Professor Gibbon have taken on their respective services an orthopaedic resident in order to meet this requirement; for this privilege the Orthopaedic Department is extremely grateful. Four months are allocated to training in the basic sciences, anatomy and pathology; this instruction is attained in the Department of Anatomy and Pathology by permission of Dean George Bennett and Professor Peter A. Herbut. In addition, the residents receive an intensive training in children's orthopaedics for one year under the able supervision of Doctor Thomas Outland at the Elizabethtown Crippled Children's Hospital. Weekly combined conferences which are attended by the resident staffs of both the Orthopaedic and Radiologic Departments are sources of valuable information. At these weekly conferences both Professor Paul Swenson and Professor Anthony F. DePalma engage actively in discussions of the radiologic

aspects of the orthopaedic problems presented. Other facets in the orthopaedic resident training program comprise bi-weekly preoperative conferences and a monthly meeting for the purpose of discussing articles in the current orthopaedic journals and other surgical journals.

The program outlined above has made the orthopaedic residency at Jefferson one of the most desirable residencies in this country. This is reflected in the numerous applications that are received every year for this training. It is the hope of the Department that in the near future one or two research fellowships in Orthopaedics will be established at Jefferson. This will step-up to higher levels the investigative work of the Department.

Research Activities:

The amount of investigative work being done in the Department of Orthopaedics has been steadily gaining momentum since 1948. At this time, Dean Bennett, Dr. Callery and Professor DePalma studied and made observations of the degenerative changes that occurred in the shoulder joint from decade to decade. This work was later supplemented by studying the same changes in patients who came to autopsy but who gave no clinical evidence of disability. By such study it was possible to determine the norm for the shoulder joint at various decades of life and also to determine the amount of changes that were compatible with good function. This work has been

The laboratory of the Orthopaedic Department.

DR. THOMAS OUTLAND, Director of Elizabethtown Crippled Children's Hospital, is in charge of the resident training program pertaining to children's orthopaedics.

published in the Instructional Courses of the American Academy of Orthopaedic Surgeons and also has appeared in the book entitled *Surgery of the Shoulder* by Professor DePalma. As the result of this investigative work, newer concepts relative to the functional anatomy of the shoulder joint were established and these findings and conclusions were the bases for new therapeutic approaches to various shoulder entities.

This work was a stimulus for another investigation conducted by Professor DePalma on the degenerative changes noted in the knee joint; this work is fast approaching completion. Many of the observations noted will be published in Professor DePalma's new book, *Diseases of the Knee Joint*. In addition, numerous articles dealing with clinical investigative work have appeared in the various surgical and orthopaedic journals. From this investigative work in clinical problems, several new operations have evolved in the Department. Among these are 1) the wedge-

type osteotomy performed for intracapsular fractures of the hip joint, 2) a new type of arthroplasty of the hip joint, 3) a new method of anchoring biceps tendon in cases of frozen shoulder and bicipital tenosynovitis, 4) a new method of treating comminuted Colles' fractures and 5) a new type of prosthesis made of vitallium is in the process of being developed. Every staff member is interested in some clinical problem which requires considerable research. Dr. Gartland at the present time is interested in the value of hyaluronidase in the treatment of hemophilic hemarthrosis. It appears that this will be a valuable adjunct in the treatment of hemophilic arthritis. Dr. Callery is interested in bone tumors and is in charge of the Bone Tumor Clinic. Professor DePalma is trying to establish the effects of repeated hemarthroses in the knee joint of animals. This work is done in conjunction with other investigative work in the problem of hemophilia conducted together with Professor Tocantins in the Department of Medicine. The problem of scoliosis has aroused considerable interest and is being studied in experimental animals.

As noted above, numerous articles have been published in the Department of Orthopaedics since 1948. Most of these have dealt with clinical problems and have been published in the surgical and orthopaedic journals. In addition, two books have appeared from the Department; in 1950, *Surgery of the Shoulder* and in 1954, *Diseases of the Knee Joint*. The Orthopaedic Department is also the home of

A typical children's ward at the Elizabethtown Crippled Children's Hospital.

Hydrotherapy being administered at the Elizabethtown Crippled Children's Hospital.

the new orthopaedic journal, *CLINICAL ORTHOPAEDICS*, edited by Professor DePalma.

In the previous paragraphs, an attempt has been made to outline briefly the growth and expansion of the orthopaedic Department in Jefferson Hospital. Although we are aware of the fact that some progress has been made, we are still far from the goal which we have set before us. It is the hope of the Orthopaedic Department to develop young men who will take an active part in academic work and become leaders in their field. It is further hoped that more basic research will be started and completed, and above all, every effort will be made to crystallize a teaching program which will provide the students with the greatest amount of information in orthopaedic surgery and traumatology that is possible to give them within the allotted time.

The Department of Occupational Therapy at the Elizabethtown Crippled Children's Hospital.

Ward Conferences — Men's Medical Ward

PROGRESS OF THE SCHOOL OF NURSING

The Jefferson Hospital School of Nursing was organized in 1891 by Miss Ella Bensen, who was very soon succeeded by Miss Katherine Darling.

The first class of five students was graduated in November, 1893. Reorganization followed and the length of the instruction period was increased to three years. At that time there were three graduate nurses on the staff and thirteen student nurses. At present there are 223 student nurses and 170 graduate nurses on the staff.

Since the organization of the School of Nursing more than 2500 graduates have passed through Jefferson's portals to give service in many different fields of nursing. The excellent record made by our graduates is a source of great satisfaction.

While the length of the instruction period remains the same, there has been a continual evaluation and revision

Microbiology Laboratory — Medical College

of the curriculum to meet the demands of the rapid advances in medical science and to care for patient needs in a large modern hospital. The scope of nursing education

Rumpus Room in the Nurses Home

has broadened in recent years, and this school has enriched its program through lectures given by members of the medical staff and additional ward classes in all departments. During the past two semesters, the sciences of Anatomy & Physiology, and Microbiology have been taught in the Medical College by instructors of the College. The association and exchange of ideas between the medical students and the student nurses in the ward teaching program have been advantageous.

The School of Nursing looks forward to continued growth and greater service. With the hospital expansion program now under way, more excellent clinical facilities will be available for a larger student body. The well-qualified Faculty of the School of Nursing insures a sound educational program.

The recreational program is planned to meet the varied interests of the student group. In addition, the "Rumpus Room," the Television and Music Rooms, and unique "Snack Bar" provide for many social activities in the Nurses' Residences.

Microbiology Lecture — Medical College

The Faculty of the School of Nursing would appreciate the assistance of the members of the Jefferson Medical College Alumni Association in the recruitment of qualified candidates for admission to the School of Nursing.

For further information concerning the School, please write to the School of Nursing, Jefferson Hospital.

Dr. Bennett was a member of a small group invited to meet with President Eisenhower at the White House on December 12, 1953 to review the accomplishments and plans of the Pan American Medical Association as a vital factor in Inter-American scientific and cultural relation. Following the meeting with the President the group was invited to lunch with the Washington Pan American Medical Group at the Hotel Mayflower.

JEFFERSON ALUMNI IN THE UNITED STATES SERVICES

GEORGE B. HECKLER, M.D., '48

Captain George B. Heckler, son of Mr. and Mrs. B. F. Heckler, 1303 Somerset Avenue, Windber, Pennsylvania, was recently awarded the Bronze Star Medal in Korea.

He was cited for meritorious service as 2nd Battalion surgeon in the 40th Infantry Division, 223rd Regiment, from April 20th to June 30th, 1953. The citation states: "Supervising the Medical Platoon and Aid Station Captain Heckler developed both into highly integrated units capable of giving rapid and adequate attention to all wounded and injured personnel."

Captain Heckler attended Pennsylvania State College and received his M.D. Degree from The Jefferson Medical College in 1948. He was later a practicing physician in Wilmington, Delaware.

He entered the Army in November 1952 and arrived

in Korea during January 1953 after an assignment at Fort Sam Houston, Texas. He also wears the Commendation Ribbon.

His wife, Christine, son Barry and two daughters, Sandra and Jamie, are living at 3114 N. Harrison Street, Wilmington, Delaware.

R. HOWARD LACKAY, M.D., '38

The Surgeon General, USAF, recently announced the appointment of Colonel R. Howard Lackay as Chief of the Medical Education Division in the Directorate of Medical Staffing and Education, Office of the Surgeon General.

Previously, Colonel Lackay was Division Surgeon, and Base Surgeon for the 6th Air Division at MacDill Air Force Base, Florida.

He received his B.S. at Duke University, Durham, N. C., and his M.D. from The Jefferson Medical College in 1938.

Colonel Lackay, a native of Hamlet, N. C., is a member of the American Medical Association, the American College of Physicians, and the Aero Medical Association.

DEAN GEORGE A. BENNETT, President of the Section of Medical Education of the Pan American Medical Association, was Presiding Officer for the Scientific Program for the first day of the cruise to the Caribbean during January, where the above picture was taken.

Reading from right to left, DR. MARTIN J. SOKOLOFF, '20, DR. CESAR DOMINGUEZ-CONDE, '20, DR. JUAN A. PONS, '27, Secretary of Health of Puerto Rico, DR. GEORGE A. BENNETT, Dean, DR. ANTONIO RAMOS-OLLER, '36, DR. GERHARD H. FROMM, '53, DR. JOSE R. PASTOR, '21, and DR. AUGUSTINE DE ANDINO, 'S-44.

Other Jefferson graduates on the cruise were DOCTORS HAROLD GOLDBERG, '15, ANTHONY PELLICANE, '33, HAROLD WARNER, '24, ROBERT LAYTON, '32, O. SPURGEON ENGLISH, '24, LEANDRO M. TOCANTINS, '26, ARTHUR R. VAUGHN, '18, and MORTON J. CROWE, '33.

CHAPTER NOTES

HAWAII CHAPTER

The first meeting of the Hawaii Chapter for 1954 was held at the lovely Diamond Head home of the new President, Dr. Robert Tuck Wong, '36.

The following officers for 1954 were elected:

- Dr. Robert Tuck Wong, '36—President
- Dr. Hon Chong Chang, '38—President-Elect
- Dr. Gail G. L. Li, '47—Secretary
- Dr. Randel A. Nishijima, '41—Treasurer

Following the business meeting, a scientific program was presented. Dr. Lin Tung Chun, 'J-44, presented a paper on "Management of Diarrhea in Infants"; Dr. Gail Li, '47, presented a paper on "Office Management of Sterility", while Dr. Richard Moore, 'J-44, discussed the "Radiological Treatment of Primary Amenorrhea".

Those alumni attending this meeting were H. C. Chang, '38, Y. P. Chang, '29, Richard Chiang, '23, L. T. Chun, 'J-44, Gilbert M. Halpern, '34, Albert K. T. Ho, '42, Benjamin Li, '29, Min Hin Li, '22, Gail Li, '47, James

Marnie, '45, Randel Nishijima, '41, Satoru Nishijima, '38, George Tyau, '31, H. Uchiyama, '29, James Wong, 'J-44, Robert Wong, '36, Richard Moore, 'J-44, Francis T. C. Au, '49, and James Yarborough, '27.

We extend our warmest Aloha to you and hope that more of you will visit us in the not too distant future.

DR. GAIL G. L. LI, Secretary

OHIO CHAPTER

This chapter will hold its fourth annual dinner in conjunction with the Ohio State Medical Association at Columbus, Ohio, on April 12, 13, 14 and 15. The Alumni Dinner will be held at the University Club, 40 South 3rd Street, Tuesday, April 13. Cocktails at 6 P.M. — dinner at 7 P.M. Faculty speakers are Haywood R. Hamrick, President of The Alumni Association, and George A. Bennett, Dean.

ANTHONY J. RUPPERSBURG, '33
President

DR. THADDEUS L. MONTGOMERY, Chairman of the Library Committee, unveils the portrait of MR. JOSEPH J. WILSON, librarian from 1917 to 1949. The painting of the portrait by MR. ROY C. NUSE was made possible through the bequest to the college by DR. BROOKE M. ANSPACH, Professor of Gynecology, Emeritus.

ALUMNI GIVING NEARS TWO-THIRDS MARK

Theodore R. Fetter, M.D., *Chairman*

From late October to mid-June each year the Alumni Annual Giving Fund carries forward its appeal for the alumni support of Jefferson Medical College, with the firm effort to secure the major part of the objective during the early months. Now we are beyond the midway point in the Sixth Annual Roll Call and the standing is good but not yet high enough to show clearly that the goals will be attained.

It has been deeply gratifying to see the interest the alumni have sustained through this period and the broadening support, especially in the younger classes. The success of the Alumni Funds to date has called for the enthusiastic and untiring work of the class agents and their associates, the support of the Alumni Executive Committee, the appreciation and backing of the college administration and the Board of Trustees, and the leadership of the Fund Committee. Three-fourths of the alumni have given to one of the six Annual Funds and the amount contributed in these Roll Calls is now over \$600,000.

At this midway point on March 4, there is a total of 2,265 contributions for the sum of \$75,657.27. The number of alumni donors at present is especially encouraging

in our effort to have 3,500 contributors this year. However, these totals will need to rise substantially from now until the close of the campaign on Alumni Day, June 17th to meet the goal of \$125,000.

Leading at this point in the annual class reports are: first in amount, Class of 1929 with Mario A. Castallo and James M. Surver as Class Agent and Associate, \$4,220; first in per cent, Class of 1894 with Colonel Frederick H. Mills, Class Agent, 90.9%; first in number, Class of 1953, Joseph J. Armao, Class Agent, 88 gifts.

Jefferson is going forward at an impressive pace — never before have the strides been greater in academic growth and physical development. There are numerous new teachers and assistants, much needed additional equipment and increasing activities in teaching and research. The initiative for many of these events in this forward movement has been due largely to the loyal support of the alumni. The funds again this year will be allocated for support of teaching salaries in the pre-clinical departments.

I believe that, as always, Jefferson alumni will to the best of their ability maintain and increase our high record of giving, which has been an example among medical colleges of the country. For the continuance of the high standards of medical education set by Jefferson, I again request all alumni who have not contributed to do so in loyalty to our Alma Mater.

Please send us any change of address. We are revising our files and need this information.

Send your class notes to the Alumni Office. Pictures, old or new, are always of interest to us and our readers.

CLASS STANDINGS — Alumni Annual Giv ing Fund, June 11, 1953 to March 4, 1954

* Given by widows in memory of husbands.

† Given by son-in-law and grandsons in memory of Robert McClellan '79.

‡ Given by daughters in memory of their father Ira A. Eberhart '89

§ Given in memory of those who have died in the Class of '17.

LOUIS B. LAPLACE, M.D.

Dr. Laplace was born December 13, 1903 in Philadelphia. He received the degree of Bachelor of Arts from Georgetown University in 1924; his Medical Degree in 1928 from the University of Pennsylvania; American Board Certification: Internal Medicine and Cardiovascular Disease, December 14, 1940.

He served his internship at the Pennsylvania Hospital 1928-30; Fellow in Medicine, National Research Council 1931-32 (Department of Clinical Research, University College Hospital, London 1931-32, Medizinische Universitäts-klinik, Leipzig 1932-33); Instructor in Physiology, School of Medicine, University of Pennsylvania 1930-34; Instructor in Medicine, School of Medicine, University of Pennsylvania 1934-38; Associate in Cardiology, Graduate School of Medicine, University of Pennsylvania 1935-42; Assistant Physician, Philadelphia General Hospital 1935-42.

Dr. Laplace was Associate Professor of Medicine, Jefferson Medical College; Chief of Cardiac Clinic, Jefferson Hospital; Cardiologist and Chief Physician, Misericordia

Hospital; Cardiologist, St. Joseph's Hospital; Cardiologist, Nazareth Hospital; Consultant Cardiologist, Valley Forge Army Hospital; Faculty Member, Graduate Education Institute of the Medical Society of the State of Pennsylvania; Editorial Board of "GP" and "American Practitioner"

He was President of the Pennsylvania Heart Association; Member of Board of Governors, Heart Association of Southeastern Pennsylvania; Member of Advisory Committee, Health Division, Health and Welfare Council; Member of Advisory Committee, Division of the Aged, Health and Welfare Council; Director, Family Service of Philadelphia; Member of Governor's Commission on Mental Health; Co-Chairman of Coroner's Advisory Committee; Member of Geriatrics Committee and Cardiovascular Committee (Past Chairman) of Philadelphia County Medical Society; Member of Program Committee of American Heart Association.

Dr. Laplace was a Past President of the Philadelphia County Medical Society; a member of the Medical Society of the State of Pennsylvania; American Medical Association; American, Pennsylvania and Southeastern Pennsylvania Heart Association; American College of Physicians; College of Physicians of Philadelphia (Past Chairman of Section on Medical History); American Geriatrics Society; American Gerontological Society; Physiological Society of Philadelphia.

He served as Colonel, MC, USAR: MOS Chief of Medical Service and Cardiologist, from May 15, 1942 to March 4, 1946.

The sudden death of Dr. Laplace on December 28, 1953 came as a great shock to his many friends, following as it did so closely the death of his wife, the former Delphine Louise Hollingsworth, which occurred on December 21, 1953.

Dr. Laplace was held in great affection by all who knew him. He was a most understanding friend, a sympathetic physician and teacher; his gracious manner and cheerfulness, his attention to his students, his willingness to advise and aid endeared him to all.

His passing has left a great void at Jefferson, where he will be held always in affectionate remembrance.

PROMOTIONS, NEW APPOINTMENTS

PROMOTIONS

DAVID MENDEL FARELL, M.D., from Assistant Professor of Obstetrics and Gynecology to Associate Professor of Obstetrics and Gynecology.

HAROLD L. GOLDBURGH, M.D., from Assistant Professor of Medicine to Associate Professor of Clinical Medicine.

CHARLES WILMER WIRTS, M.D., from Assistant Professor of Medicine to Associate Professor of Medicine.

HARRY A. BOGAEV, M.D., from Associate in Urology to Assistant Professor of Clinical Urology.

WALTER PAUL HAVENS, JR., M.D., from Associate in Medicine to Associate Professor of Medicine.

SIXTH ANNUAL JEFFERSON GRADUATE ASSEMBLY

The Sixth Annual Jefferson Graduate Assembly was held February 3-4-5, 1954 in the College. There were 106 Alumni who attended the 3-day session and 45 members of the Faculty and Staff who participated in the presentation of Television clinics and didactic lectures. Television clinics were provided through the courtesy of SMITH, KLINE & FRENCH LABORATORIES and turned out to be a highly successful feature of the Assembly. The cost of the Assembly per participant was ten dollars which included all sessions and an evening Clinical Pathological Conference. Luncheon on the first day was served through the courtesy of the Dean and on the second and third day by the Executive Committee of the Alumni Association.

CLASS REUNIONS

The Chairmen for the following Classes are formulating plans for reunions, June 16, 1954. Complete information will appear in the May Bulletin.

1894 Colonel Frederick H. Mills, Chairman
127 Heather Road
Upper Darby, Pa.

1899 Harry F. Weber, M.D.
4601 Wayne Avenue
Philadelphia, Pa.

1904 Louis Chodoff, M.D.
1520 Spruce Street
Philadelphia, Pa.
Graydon D. Mervine, M.D.
204 W. Main Street
Lock Haven, Pa.

1909 Harold L. Foss, M.D.
Danville, Pa.

1914 George L. Armitage, Jr., M.D.
400 E. 13th Street
Chester, Pa.

1919 Milton B. Emanuel, M.D.
625 Vine Street
Philadelphia, Pa.

1924 Albert R. Feinberg, M.D.
186 S. Franklin Street
Wilkes-Barre, Pa.
Wm. Clarence Wilson, M.D.
520 S. 46th Street
Philadelphia, Pa.

1929 Patrick S. Pasquariello, M.D.
2422 W. Allegheny Avenue
Philadelphia, Pa.

1934 Edward Joseph Moore, Jr., M.D.
204 Meeting House Lane
Merion, Pa.

1939 John H. Hodges, M.D.
1007 Nicholson Road
Wynnewood, Pa.
Joseph P. Long, M.D.

725 S. Highland Avenue
Merion, Pa.

1944-J Robert Breckenridge, M.D.
Jefferson Hospital
10th and Sansom Streets
Philadelphia 7, Pa.

1944-S James Dickensheets, M.D.
4405 Westfield Avenue
Pennsauken, N. J.

1949 Robert G. Johnson, M.D.
Jefferson Hospital
10th & Sansom Streets
Philadelphia 7, Pa.
Marvin M. Lindell, Jr., M.D.
150 W. Evergreen Avenue
Philadelphia 18, Pa.

1944-J Plans are under way for our tenth reunion. Tentatively, we will hold the reunion dinner at the Latin Casino on Wednesday, June 16th. We have chosen the Casino because it is centrally located within walking distance of the College and most of the hotels. Also, it has dancing facilities and usually a good floor show. We hope that a good many of you will bring your wives along. Other arrangements are being made for those who wish to play golf in the afternoon and to get together after graduation. If any member of the class has some ideas for the reunion please get in touch with us.

The Alumni Office has no record of the addresses of the following members:

Page W. Acree, M.D.
Carl V. Anderson, M.D.
Harry Cohen, M.D.
Harold E. Day, M.D.
John J. Kavanagh, M.D.
Edward B. McCabe, M.D.
Durward W. Southard, M.D.

If anyone has the addresses of these lost souls get in touch with the Alumni Office.

Robert L. Breckenridge, M.D.
Chairman, Reunion Committee
Jefferson Hospital
10th and Sansom Streets
Philadelphia 7, Pa.

With spring just around the corner our thoughts turn to the "good old days", when the doctor had few traffic problems. JOSEPH H. CLOUD, M.D., '92, of Ardmore, Pennsylvania, has given us this picture of Fred and Prince, the Doctor's friends of the Gay Nineties.

ALUMNI PLACEMENT SERVICE

POSITIONS AVAILABLE

Wanted: Jefferson man as an associate. Large general practice in New Jersey. Start after June 1st.

Wanted: Physician would like to share office with young doctor. Philadelphia central city location.

POSITIONS WANTED

Wanted: Young doctor discharged from the service last June and presently serving a residency is interested in establishing himself in General Practice in a community of approximately 5,000 to 20,000 population with a

hospital within 10-12 miles in Northwestern, Central or Southeastern Pennsylvania.

Wanted: 1953 Jefferson graduate, Diplomate of National Board, is seeking opportunity for General Practice in Pennsylvania or neighboring states. Presently interning at Jefferson Hospital.

Wanted: Recent graduate finishing internship in June 1954 would like to assist older doctor for one year, from July 1954 to July 1955.

Wanted: Young doctor will be discharged from the Army in the near future. Would like to enter private practice, limiting himself to General, Thoracic and Orthopedic work. Interested in settling in Pennsylvania or the New England States.

The Executive Committee of The Alumni Association has chosen a chair made of hard wood, finished in antique black with the Jefferson seal screened in gold.

Before offering it to you, we have had one in the Alumni Office, which has been used by some of the Alumni, who find it attractive and comfortable and believe it would be an addition to the home or office so have given their approval. Any alumnus desiring to purchase the chair may do so by filling in the attached.

MARIO A. CASTALLO, M.D.

The following letter from Mario A. Castallo, M.D., '29, after his return from a visit to Arizona will be of interest:

"On January 19th I had the privilege of appearing before the staff of St. Mary's Hospital, in Tucson, Arizona, to give a report on the results of our work with tubal plastic procedures with the use of Polyethylene tubing. While in Tucson, I found that there were two new doctors who have come to Tucson from Jefferson. Dr. Robert Lacock of the class of 1946 had come to practice Obstetrics and Gynecology in Tucson. He had interned at the Delaware Hospital in Wilmington and he had his residency at the Women's Hospital in Baltimore 1950-1953. He has offices with Drs. Frazier and Newcomb at 620 North Country Club Road. He has no children at this time but his wife expects a child in April of this year.

I had a nice visit with Dr. William Goodin of the class of 1943. Dr. Goodin was a resident of the Tucson Medical Center 1949-1950, and at the Pima County Hospital 1950-1951. Since November of '51 Dr. Goodin has been associated with the famous Holbrook Hill Clinic at 243 East 6th Street, where he is specializing in Arthritis and Rheumatic diseases. Dr. Goodin has had his first child in July 1952 and he expects another in March of 1954. Dr. Goodin feels that the Giving Fund is a grand thing and says it is a pleasure to contribute to it, all he possibly can.

The newest arrival in Tucson, Arizona, is Dr. Stuart Over, '41. Dr. Over has been in Pittsburgh doing Industrial Medicine as Medical Director of the American Cyanamid Companies, Pittsburgh Plant. Dr. Over interned at Williamsport Hospital in Pennsylvania. They have a child aged seven. He is coming to Tucson as Chief of the Tucson Clinic, 110 S. Scott Street, and Director of the Department of Industrial Medicine.

I contacted all the remainder of the Jefferson men. My classmate, Dr. Vincent Hart, '29, who had been in Tucson had moved. His new address would be appreciated. Another classmate of mine, Dr. John Ward, '29, is head of the Department of Rehabilitation and Physical Medicine for the Veterans Hospital at Tucson and has taken that as a specialty. He spent two months in New York at the Institute of Physical Medicine and Rehabilitation during last summer.

Dr. John Donahue, Class of 1910, has been ill in bed since last August with arthritis of the spine and he was

most glowingly thankful to the Jefferson men of Tucson, who visited him at Christmas time with flowers and gifts as a memento of good cheer in his illness. At the end of February he might be up and about again.

I spoke with Dr. Carlisle McKee, of the Class of 1906. He, of course, was back last year for the reunion, and he corresponds with Dr. Fielding Lewis often, and keeps in touch with the school through Dr. Paschkis, who has been taking care of him. Dr. C. Claire Leydie of the class of 1941 is very busy with his group of anesthetists and wishes to be remembered to his classmates.

Dr. Blair Saylor of the Class of 1940 would still like to have a Jefferson man come to Tucson to give them a hand, as they are very much in need of someone in Nose and Throat. Dr. Alexander Shoun, Class of 1932, is President of St. Mary's staff and is most happy about the Jefferson men who happen to be in Tucson. It is more like a great big family. Dr. Shoun is doing internal medicine.

Dr. Edward Von Dedenroth of the Class of 1949 is also doing internal medicine. He is one of the busiest practitioners in Tucson and has been a great spark plug for Jefferson and things of Jefferson. He expects to come back to Philadelphia for his fifth reunion. I caught Dr. Philip Derickson of the Class of 1943, just before he was jumping a plane to go to Chicago for the meeting of the American Academy of Orthopedics. He keeps in touch with Gerald Gallery, who is his class agent, and he expected to see him in Chicago when he arrived. Dr. Derickson has four children, they are 8, 5, 3½ and 6 months old.

That makes an even dozen of Jefferson men now in Tucson, and the spirit of Jefferson and all that it means is well carried out in its "nth" degree, with this very loyal group of alumni."

A. M. A. CONVENTION

June 21 - 25, 1954

San Francisco, Calif.

Dinner of the Alumni Association
of The Jefferson Medical College

Dr. Edward Matzger,
Chairman

FACULTY NOTES

George A. Bennett, M.D., Dean, was guest speaker at the monthly meeting of the Lebanon County Medical Society on December 8, 1953. The subject of Dr. Bennett's talk was "The Problems of Administration of a Medical School." Preceding the meeting a dinner was given in honor of Dr. Bennett.

On December 10, 1953, Dr. Bennett spoke before members of the James R. Cameron Honorary Society of Oral Surgery, School of Dentistry, Temple University, Philadelphia. His topic was "The Muscles of Facial Expression."

Dr. Bennett was a member of a small group invited to meet with President Eisenhower at the White House on December 12, 1953 to review the accomplishments and plans of the Pan American Medical Association as a vital factor in Inter-American scientific and cultural relation. Following the meeting with the President the group was invited to lunch with the Washington Pan American Medical Group at the Hotel Mayflower.

Dr. Bennett attended the Council on Medical Education and Licensure held in Chicago from February 7th to 10th inclusive.

David M. Davis, M.D., Professor of Urology, Emeritus, delivered the annual Benjamin A. Thomas Oration before The Philadelphia Urological Society January 25, 1954. Dr. Davis is the first Philadelphian to be invited to deliver this oration. His subject was "Unexplored and Neglected Areas in Urology."

John English Deitrick, M.D., Magee Professor of Medicine and Head of the Department, spoke at both the morning and afternoon sessions of the Eleventh Biennial Post-Graduate Seminar of the Wilkes-Barre General Hospital November 12, 1953.

Mario A. Castallo, M.D., Clinical Professor of Obstetrics and Gynecology, was guest of the Twenty-first Ward Medical Society on the evening of February 16th, 1954, where he reported on a survey of Latin-American Clinics, which were visited during the winter of 1952.

C. Wilmer Wirts, M.D., Assistant Professor of Medicine, participated in the program of the regional meeting of The American College of Physicians and presented a paper ("The Management of Gross Intestinal Bleeding") on January 15th. On January 19th he presented a teaching clinic "The Management of Ulcerative Colitis" to the staff of the Veterans Administration Hospital in Clarksburg, West Virginia.

Dr. Wirts received a grant of \$5,000.00 from the Damon Runyon Memorial Fund for Cancer Research, Inc.

for the continuation of a study of "Gastric Cancer Detection" for the third successive year.

Through the generosity of Dr. William W. Lermann, "The Dr. and Mrs. William W. Lermann Fund" for gastrointestinal research dealing particularly with the relationship of infection to gastrointestinal and degenerate diseases has been established in the Gastrointestinal Division.

Edward Favis, M.D., physician in chief of the White Haven Branch of the Barton Memorial Division of The Jefferson Medical College was made a fellow in the American College of Chest Physicians.

NICHOLAS A. MICHELS, M.A., Dr. Sc.

In recognition of his scientific contributions on the variational anatomy and blood supply of the upper abdominal organs, Dr. Nicholas A. Michels, Professor of Anatomy at the Daniel Baugh Institute of Anatomy, was elected a member and chairman of the Allied Science Section of the United States Section of the International College of Surgeons at a meeting of the Executive Council held August 22, 1953. He was formally admitted to the College at the Convocation, Thursday evening, September 17, 1953 at Carnegie Hall, New York City. On that day he, as guest speaker, addressed the General Assembly on "Anomalies of the Circulation".

Dr. Michels' investigations on the varied blood supply of the supracolic organs, in particular, as regards the varied character of hepatic and cystic arteries have recently been published in the *Annals of Surgery*, *Archives of Surgery*, *Journal of the International College of Surgeons* and in *Cancer*.

From Dr. Michels' report of the New York meeting as chairman of the Allied Science Section there appeared in the *Journal of the International College of Surgeons* the following excerpts:

"Surgeons from all sections of the United States and Canada and from different countries came to listen and having listened, returned to their respective posts with the conviction that no matter what their amount of learning from books, travel or personal experience, there is no substitute for the spade work of the scientific investigator.

"The long array of scientific papers presented at the meeting of the International College of Surgeons bears witness to the fact that the quickening scientific desire to unravel disease has not ceased and today still is the highest motive of the surgeon's endeavors . . . Listening to the various papers, one felt instinctively that what was presented had withstood the test of science and therefore deserved consideration not only from a scientific but from a humanitarian point of view."

CLASS NOTES

- 1887 FRANK L. SHAW, M.D., Steuben, Maine, — Dr. Shaw's daughter writes:

"My father, Dr. Frank L. Shaw, wishes me to again thank you for making his birthday so festive with your beautiful gift of flowers.

It was his "ninetieth" and therefore a momentous occasion, which he enjoyed in his usual good health.

He sends his sincere greetings to the Alumni Association."

- 1888 CLARENCE E. DOWNES, M.D., 314-15th Street, Ct., Bradenton, Florida, writes:

"I am deeply ashamed of myself for not answering your friendly letter.

I have advised many patients to grow old gracefully, now I am trying to practice it. The enclosed clipping came to my attention this week, I thought it expressed my sentiments."

GROW OLD GRACEFULLY

As the days of youth pass by me . . . and my ardor becomes cold. I begin to realize that I . . . am fast becoming old . . . life takes on a new perspective . . . and I temper all my fears . . . for I've learned I must give and take . . . to gain my happy years . . . I endeavor to be youthful . . . even though it's hard to do . . . for the road I take is longer . . . to the dreams that I pursue . . . but I try with all that's in me . . . to be gay and wear a smile . . . as I know the way is smoother . . . if I think that it's worthwhile . . . and I have found that youth will linger . . . if I have a happy heart . . . so I look upon my aging . . . in a way that's sweet not tart . . . it's not easy and I know it . . . but I know that you'll agree . . . that a wondrous code for living . . . is to grow old gracefully.

- 1889 JEROME S. KENDIG, M.D., Salunga, Pennsylvania, — Dr. Kendig's daughter writes:

"Thank you very much for the very pretty flowers and vase you sent to my father for his ninetieth birthday. It pleased him no end and because of their beauty and the fact of your remembering. He enjoyed showing them to his many friends who called wishing him well during the day.

My father up to September 4th was out calling every day, all day long, and seeing patients in his office. He truly has been the good old family doctor, and his patients just will not give up. He surely has the love and good will of the community for miles around, because of his gentleness.

Thanking you again for remembering."

- 1891 JOHN S. S. COOPER, M.D., 47 N. Owen Avenue, Lansdowne, Pennsylvania, writes:

"Thank you for again calling my attention to the Alumni drive.

With best wishes to Jefferson and yourself."

EDGAR W. TULLY, M.D., 7125 Lincoln Drive, Philadelphia, Pennsylvania, writes:

"Thank you very much for your best wishes for my health and happiness.

I wish the former was as good as the latter, but at my age, I do not expect a perfect balance."

- 1894 W. WILLIAM CHATTERTON, M.D., 4241 E. Live Oak, Arcadia, California, — Dr. Chatterton's son, Dr. Howard D. Chatterton, writes:

"I am glad to report to you that my father, W. A. Chatterton, is very proud to still be the oldest living member of the class of 1894. He is able to be up every day and enjoys a routine of reading and short walks. He is in no pain and is very cheerful and wants to live to be ninety. His eyesight and hearing are very good and he is just as neat and particular about details of orderliness as ever."

JESSE O. ARNOLD, M.D., 358 Abington Avenue, Glenside, Pennsylvania, writes:

"I wish to sincerely thank the members and friends of the Alumni Association for the most beautiful basket of flowers that came in time to help me celebrate my 85th birthday, December 28, 1953. More than a hundred of my old and new friends enjoyed these flowers with me, and I assure you I shall always gratefully appreciate your kindness in sending them."

- 1900 C. J. STYBR, M.D., 865 Lockhart Street, Pittsburgh 12, Pennsylvania, writes:

"A short time ago I heard we lost one of our oldest classmates and class president, A. G. Ellis. I have a pleasing memory of a visit my wife and I had at his home in Colorado Springs, shortly after his return from Siam, where he was the physician to the king, and viewed the many souvenirs he brought along."

- 1901 JOHN W. FUNKE, M.D., 712 Durant Place, N.W., Atlanta, Georgia, writes:

"You probably don't realize it but I am in the same predicament as are the members of the faculty in the pre-clinical years in that I am not a practicing member of the profession.

I was out your way the early part of the year. I paid a visit to the Bryn Mawr Hospital."

JAMES D. HEYSINGER, M.D., 438 Canterbury Hill, San Antonio 9, Texas, writes:

"I go out very little — stay in the house with my daughter and a cocker spaniel, and dream of the past.

When I saw the picture of the survivors of our class in the Alumni circular, I said to myself I should live so long."

1902 RALPH W. STEWART, M.D., 3141 Collingwood Blvd., Toledo, Ohio, who practiced medicine in Toledo for fifty years, died January 10th after a heart attack in his home. He had been in retirement for a year.

In 1953, Dr. Stewart received both the fifty year citation and medal awarded by the Ohio State Medical Association and the medal conferred by The Jefferson Medical College upon its alumni completing fifty years of meritorious service in the profession.

Born in Pemberville, Ohio, Dr. Stewart served in the Spanish-American War in 1898 and 1899 as a surgeon major with the 6th Ohio Volunteer Infantry Regiment in Cuba. He was active in the Egbert Camp, United Spanish War Veterans, and was senior vice-commander of that organization.

He began the practice of medicine in Toledo soon after his graduation. Before World War I he was for a time assistant health officer for the City of Toledo, and was for several years a health inspector for the public schools.

Dr. Stewart was instrumental in building up a small hospital for contagious disease cases, primarily smallpox. He also taught in the old Toledo Medical College. He was on the staffs of Riverside, St. Vincent's and Toledo Hospitals. Surviving are his wife, Alice; son, David Stewart; daughter, Mrs. Barbara Bonn; and a grandson.

1903 AUGUSTUS H. CLAGETT, M.D., Hickory Hill, Box #246, Stuart, Florida, writes:

"My health is good for a man of my age; I spend my time fishing when the water is clear and playing shuffle with the boys. The boys are anywhere from seventy to eighty-five. I can still remain erect when pushing the disc and enjoy the outdoor life here.

Better think about coming to Florida and living longer, if it means anything. If you ever make the trip down the East Coast, stop in and say Hello. Let me know the time so I will be at home."

MEYER J. KATZ, M.D., 449 E. 14th Street, New York 3, New York, writes:

"There is not much I can tell you about myself. You probably read in the last issue of the Jefferson Bulletin the article on our Golden Wedding Anniversary. I received a letter and anniversary card from a classmate, A. H. Clagett of Stuart, Florida. He had read about it in the Bulletin. It was nice of him and I wrote him so. My wife and I were thrilled on receipt of his letter.

I have not been practicing since 1939. I devote my time to my Masonic lodge, the Eastern Star Chapter, and to various charities and institutions. I attended our fiftieth anniversary reunion. We had fourteen of the class present; we certainly had a good time. I enjoyed the evening immensely, and I hope we shall meet in June at the 51st reunion."

1907 GERALD D. BLISS, M.D., 1220 - 13th Street, Altoona, Pennsylvania, writes:

"I appreciate your efforts to raise money for "Old Jeff"; I am enclosing a contribution.

With best wishes to you."

F. F. BORZELL, Class Agent for 1906, whose class is second among those prior to 1908.

1908 PHILIP S. EASLEY, M.D., 3744-A Louisiana Avenue, St. Louis 18, Missouri, writes:

"Here are some lines I wrote soon after my last birthday (April 22, 1953):

PASSING

"Exeunt Omnes"

The people pass
from day to day;
We see them pass
along the way.
And as they pass
(on feet of clay),
So all shall pass,
And so — passé.

W. D. GRIESEMER, M.D., 237 N. 5th Street, Reading, Pennsylvania, writes:

"Thanks for your recent letter. I like the stationery and will write PhiFer. Sorry to hear of Krout's passing altho it was no surprise, as he had been in bad shape for quite a long time.

So far, I have been lucky. While I still have an office, my practice is a very small percentage of what I previously had, and so my contributions must be cut. However, I may later add to my gift to Jeff. Am certainly planning to attend the meeting in June, but probably will not stay for the Dinner unless it is early enough for me to leave by train in time to get home before midnight. I spoke of this before. We are having the Fiftieth Anniversary of our High School graduation on June 19th, but I suppose the Jefferson meeting will be before that.

This is being written very hurriedly as we leave in a few days for a cruise to the West Indies."

OTTO M. ROTT, M.D., 1828 First Avenue, Spokane 9, Washington, — A poem by Dr. Rott:

Where the stakes are so high
That not a single guy
Can afford to play the game
Of "What's in a name?"

OSCAR L. ZELLE, M.D., 503 S. 7th Street, Springfield, Illinois, writes:

"I am enclosing a check for the Alumni Fund.

We are leaving for Florida the 27th and expect to be gone four months. We plan to take a cruise out of Galveston to Northern South America before we come home.

Calvert was here and spent a few days. I appreciate having any of the boys come and see us. Try it sometime."

- 1914 KARL B. PACE, M.D., Greenville, North Carolina, was one of four physicians honored recently in the dedication of the new Pitt County Memorial Hospital at Greenville, North Carolina. The new public institution succeeds the first and only hospital in the county, Pitt General Hospital, which was founded in 1916 by Dr. Pace and three other physicians. In a memorial folder prepared for the latter hospital, Dr. Pace is given great credit for his outstanding contribution to medical facilities and services in the county and for his many years of guidance to the hospital. The folder says the "hospital will stand as a living memorial to the four physicians who founded it."

- 1915 GEORGE F. BREWSTER, M.D., 15 New York Avenue, Ocean Grove, New Jersey, writes:

"Please find my yearly contribution enclosed. Wish it could be more."

EDWARD D. LEETE, M.D., 47 Bowdoin Street, Dorchester, Massachusetts, writes:

"Do hope the past year has been most active for you in all respects.

The years have passed so quickly since leaving "Jefferson", and what great changes have taken place, so we dare look backwards. May the year '54 be brighter in all respects for all.

We must keep "Jefferson" at the top and hope her "star" will ever burn brightly.

Find enclosed check.

With kindest personal regards and good wishes."

- 1917 ADOLPH A. WALKLING, M.D., 136 S. 16th Street, Philadelphia, as of March 1st is Acting Director of the Division of Surgery, at the Pennsylvania Hospital, Philadelphia.

- 1923 HARVEY R. BAUMAN, M.D., 117 E. Kibler Street, Bluffton, Ohio, has written a very interesting letter to his Class Agents concerning his work and that of his wife as medical missionaries in India.

"The second notice has been received. I shall haste to send a small contribution. I wish it could be much larger but, as you know, I am not engaged in a money making occupation. Many of our classmates could match this gift a thousand times.

We are awaiting our visa to return to India and shall leave the U.S.A. for another seven year term as soon as that comes. Plans are to leave within a month after the receipt of visa.

India is still considered the most needy country in the

world. Very little chance of progress in India until there is a change of religion. Traditions and customs are a barrier to progress especially public health and sanitation.

I am not sure whether we shall get to Philadelphia before leaving but if possible we shall do so. We are interested in getting a few more items of equipment, maybe an electrocardiograph, hot electric wet compressor, medicine bag, etc. but do not know whether we can swing them financially.

May Jefferson ever go forward and continue to train young men for service to their fellow men. We really have no justification to study medicine unless we are willing to give our best to all regardless of race, creed, economic or social status.

We heartily welcome one and all to come and see our work in Champa, M.P., India. We have work there for any and all kinds of specialties too."

- 1926 PHILIP S. CLAIR, M.D., 1811 W. 67th Avenue, Philadelphia, Pennsylvania, writes:

"Jerry, 2nd Year Jeff, caught an eighteen pound salmon last spring at Charleston, Ontario. Both boys are ardent fishermen like their father and spent sometime on the island with their father."

P. G. MAINZER, M.D., 2210 Parade Street, Erie, Pennsylvania, writes:

"I am hard at it every day and now that the wintery blast arrived in this part of the country, I am looking to spend a few weeks in the sunny clime of Florida. My best hobby still is traveling, and the past summer took me to a trip to South America, which the family enjoyed, and we all had a grand time.

Enclosed is my check to the Alumni Fund, and I hope to see all the member of the class of '26 in the Century Club. Three cheers for the class of '26, and I hope to see our class lead the list of givers."

- 1927 PETER E. RINGAWA, M.D., 35 E. Green Street, Nanticoke, Pennsylvania, writes:

"Enclosed is a check for the Alumni Annual Giving Fund. I wish it were larger, but I am now at the age where two children are at school and contributions are heavy. Incidentally, my boy Pete is a sophomore at Princeton now."

- 1929 YEN PUI CHANG, M.D., 2235 Seaview Avenue, Honolulu, Hawaii, with his wife and three children will fly from Hawaii to the west coast, pick up a car in Detroit and drive to Philadelphia for the 25th Reunion. He is going to try to see as many classmates as he can on a trip across the country.

JAMES L. HOLLYWOOD, M.D., 219 Danforth Avenue, Jersey City 5, New Jersey, writes:

"Received your letter and am glad to hear from you. I guess we will be seeing each other in June.

Things are going nicely. I hope your plea will bear fruit, and the class will be well represented among the Century Club."

1930 SAMUEL COHEN, M.D., 100 Clifton Place, Jersey City 4, New Jersey, was appointed on December 14, 1953, by the Board of Managers of the B. S. Pollak Hospital for Chest Diseases to the position of Director of Medicine.

J. NORMAN REEVES, M.D., Westernport, Maryland, who was recently commissioned a lieutenant colonel in the Air Force, Medical Corps, has received orders to report to Gunter Air Force Base, Montgomeryville, Alabama, for active duty on March 10th.

After several weeks in Alabama he will be sent to Europe for further assignment.

Dr. Reeves has practiced in the Tri-Towns for over twenty years and has specialized in diseases of the eye, ear, nose and throat.

1931 WILLIAM JOSEPH McMARTIN, M.D., 611 City National Bank Building, Omaha, Nebraska, Professor of Urology at Creighton University in Omaha, whose father was earlier professor of that department, as President of the American Urological Association will be presiding over the sessions of that organization at its annual meeting, May 31st to June 5th, 1954, at the Waldorf-Astoria Hotel in New York.

1933 JESSE KIEFFER, M.D., 246 Bushkill Street, Easton, Pennsylvania, writes:

"It was good to hear about some of the gang at the Alumni Dinner and the Twentieth Reunion. I'll make a harder try this year, and maybe make the grade this time, to get down. Would sure enjoy seeing the fellows again. It's been a long time for most of us, I'm sure."

ELI C. RIDGWAY, JR., M.D., Cody, Wyoming, writes:

"I think keeping a Medical School independent is vitally important, and you deserve a lot of credit for your battle for funds with our class."

1934 STEPHEN A. JONAS, M.D., 526 College Street, Nanticoke, Pennsylvania, has been appointed 1954 Red Cross Fund Campaign Chairman for Nanticoke—Newport Chapter. Dr. Jonas is a life resident of Nanticoke. His wife is the former Jean Jarolim. They have one son, Stephen, Jr., who is serving with the United States Air Force Far Eastern Command.

JOSEPH P. ROBINSON, JR., M.D., 533 - 8th Avenue, Bethlehem, Pennsylvania, writes:

"Here is a check for this year's Fund, and I'll send more before this years' drive is over in June."

1935 MALCOLM M. DUNHAM, M.D., 88 Grove Avenue, Woodbridge, New Jersey, was elected President of the Middlesex County Medical Society.

1937 HENRY DARWIN MURRAY, M.D., 460 Pine Avenue, Waynesboro, Virginia, has joined the Medical Section of the Waynesboro DuPont Plant.

Dr. Murray is married and the father of four children.

JOSEPH A. RALSTON, M.D., 1748 Youngstown Road, Warren, Ohio, was recently elected President of the Trumbull County Society for the coming year.

1938 HARRISON F. ENGLISH, II, M.D., 160 W. State Street, Trenton, New Jersey, spoke at the Monthly Supper Forum at the First Unitarian Church, 135 Academy Street, Trenton, on November 20th, 1953. Dr. English discussed Psychiatry.

PINCUS SOBIE, M.D., 281 Willowbend Road, Rochester 18, New York, recently completed a course in Geriatrics at the Post-Graduate Medical School of New York University-Bellevue Medical Center.

Dr. Sobie is an Assistant Physician in Genesee Hospital, Strong Memorial and Municipal Hospital in Rochester.

JOHN Y. TEMPLETON, III, Agent for 1941.

1941 THOMAS ARMSTRONG, M.D., 36 S. Pitt Street, Carlisle, Pennsylvania, after his discharge from the army returned to Jefferson for a residency with Dr. DePalma, and is now practicing Orthopedics strategically near the Turnpike.

CHARLES N. BURNS, M.D., 38 N. Franklin Street, Wilkes-Barre, Pennsylvania, completed his residency and passed the Boards of Urology in 1952. He practiced in Canton, Ohio, but recently returned home to take up practice there. He is married and has a son.

DEWITT DELAWTER, M.D., 3848 Porter Street, N.W., Washington 16, D. C., is practicing Internal Medicine, teaching and doing clinical research at Georgetown University.

PAUL DUNN, M.D., 107 Boas Street, Harrisburg, Pennsylvania, is a Psychiatrist and Director of the York and Harrisburg Child Guidance Clinic.

BENJAMIN F. FORTUNE, M.D., Box #1922, Greensboro, North Carolina, is practicing in the old hometown and was married a year or so ago.

JOHN J. GILL, M.D., 69 West Union Street, Wilkes-Barre, Pennsylvania, passed the examination of the American Board of Radiology and has been granted "certification in Radiology".

Recently Dr. Gill was appointed Assistant Clinical Instructor in Radiology at the New York Medical College. This will necessitate trips to New York. Dr. Gill will continue to practice Radiology in Wilkes-Barre.

CLYDE C. GREENE, JR., M.D., 490 Post Street, San Francisco, California, is doing Internal Medicine, teaching at Stanford and is consultant to Pacific Telephone Company. He is married and has two children, a son and a daughter.

THOMAS K. HEPLER, M.D., Geisinger Memorial Hospital, Danville, Pennsylvania, interned at Geisinger, served in the Pacific, took a Master's Degree in Pathology at the University of Minnesota and is again at Geisinger as Pathologist.

C. CLARK LEYDIC, M.D., 521 E. Third Street, Tucson, Arizona, is doing Anesthesiology. He is Director of the American Society of Anesthesiologists and is Associate Examiner of the Boards.

JOSEPH M. McMAHAN, M.D., 119 E. Hallam Avenue, Washington, Pennsylvania, is practicing General Surgery with Paul Riggle, M.D., '30. He is married and has two children.

JOSEPH NOSEL, M.D., R. D. #2, Lehighon, Pennsylvania, passed his Boards and is now Chief Surgeon at the Gardner Heutten Memorial Hospital in Sunbury, Pennsylvania.

VINCENT PALMISANO, M.D., 300 S. Black Horse Pike, Runnemede, New Jersey, is practicing Pediatrics and Internal Medicine after a year at the Graduate School of the University of Pennsylvania. He is married and has three daughters.

EARL W. SCHAEFER, JR., M.D., 521½ N. Main Street, High Point, North Carolina, practices Orthopedic Surgery in Tarheelia. He has his boards, FACS and American Academy of Orthopedics. He enjoys the country life with his wife and two sons.

GEORGE H. TAFT, M.D., 63 Potter Street, Cranston 10, Rhode Island, is practicing Pediatrics with a special interest in Neurological disorders.

ROBERT WOLFORD, M.D., 55 Sturgess Avenue, Mansfield, Ohio, is practicing Internal Medicine and has his Boards and F.A.C.P.

1944-J GALE D. JOHNSON, M.D., 517 Hyman Drive, New Orleans 27, Louisiana, appeared on the television program "March of Medicine" with Dr. Oschner of the Oschner Clinic in New Orleans.

1945 LEONARD APT, M.D., 100 Memorial Drive, Cambridge 42, Massachusetts, is Assistant Physician at the Children's Med-

ical Center and a member of the Department of Pediatrics of the Harvard Medical School. His special interest is pediatrics hematology; he is presently working in the Radio Isotope Unit.

DANIEL E. BRANNEN, M.D., 131 Chatham Drive, Dayton 9, Ohio, is doing surgery and passed Part I of his Boards a year ago and hopes to take Part II this spring. He has three children, two girls and a boy.

DANIEL H. COLEMAN, M.D., 937 - 17th Street, N., Seattle 2, Washington, is doing private practice half time and the balance of the time he is at the University in the Department of Hematology. He has four daughters.

ROBERT L. IMLER, JR., M.D., 1353 East 26th Place, Tulsa, Oklahoma, has opened an office for the practice of Neurosurgery.

HERBERT A. LAUGHLIN, M.D., 66 S. Portage Street, Westfield, New York, is doing general practice with special work in Anesthesiology. He has three children, two boys and a girl.

ROBERT H. LEAMING, M.D., is doing Radiology at Midtown Hospital, New York, plus outside office. He has two sons. JAMES H. LEE, M.D., is a Senior Medical Officer in a Navy Hospital in Honolulu, Hawaii. He is Board qualified in OB and GYN.

AVERY W. McMURRY, M.D., of Shelby, North Carolina, was married to Miss Virginia Faunce of Ashland, New Jersey, at the First Baptist Church. The couple will make their home at 511 South Washington Street in Shelby.

JAMES F. NORTON, M.D., 36 N. Grove Street, East Aurora, New York, is doing general practice. He has two children, a boy and a girl.

1946 WILLIAM BALTZELL, M.D., 208 Rex Avenue, Chestnut Hill, Philadelphia, Pennsylvania, —

Mr. and Mrs. Archibald C. Edwards of Oklahoma City have announced the engagement of their daughter, Miss Sara Handy Edwards, to Dr. William Hewson Baltzell, son of Mrs. E. Digby Baltzell and the late Mr. Baltzell. Our congratulations to the happy couple.

SIDNEY KORETSKY, M.D., opened an office for the practice of Internal Medicine at 520 Beacon Street, Boston, Massachusetts, following his return from Europe, where he spent his honeymoon. He was married to Miss Elaine Stern, daughter of Dr. and Mrs. Davis Stern, Brookline, Massachusetts.

Dr. Koretsky is an instructor in Medicine at Tufts College Medical School; he is also associated with the Department of Hygiene of Harvard University.

JAMES V. MACKELL, Class Agent for 1946, whose class is much ahead of last year.

Camm Drummond of Amherst, November 14, 1953, at the Amherst Baptist Church. After their wedding trip, spent in Bermuda, they will make their home in Norfolk, where Lieutenant Parker is stationed at the Norfolk Naval Supply Center.

DR. AND MRS. VERNE L. SMITH, 8 Charles Street, Danvers, Massachusetts, announce the birth of a daughter, Bonnie Lee Smith, born January 6, 1954. Our congratulations!

1947 WILLIAM J. BROWNING, III, M.D., 134 N. Centre Street, Merchantville, New Jersey, has completed three years with the Navy and is doing General Medicine in Merchantville.

JOSEPH A. DIORIO, M.D., 5431 Chester Avenue, Philadelphia 43, Pennsylvania, had a happy reunion with his wife and family this past Christmas, for he saw his daughter, Anita, who was born in January, 1953, while he was on active duty with the Army in Korea.

JOHN DOWLING, M.D., has an Orthopedic Residency at the State Hospital for Crippled Children at Elizabethtown, Pennsylvania.

ROSS S. FUNCH, M.D., 305 N. Grant Street, Waynesboro, Pennsylvania, has just returned from service with the Navy, Marines and Army and is doing very well in general medicine in Waynesboro. The Air Force was the only service Ross missed, but this was represented by brother Bob.

EDGAR C. HANKS, M.D., formerly of Johnstown, Pennsylvania, has been promoted to the rank of Captain in the Army Medical Corps, according to word received by his parents.

At the present time Dr. Hanks is serving as a specialist in Anesthesiology at Valley Forge General Hospital, Phoenixville, where he has been stationed since mid-September.

SAMUEL V. KING, JR., M.D., is now undertaking an Orthopedic Residency at the Letterman Army Hospital in San Francisco, California.

ROBERT S. MCCURDY, M.D., 3054 Tenth Street, Boulder, Colorado, is associated with a nineteen man group in Boulder and is doing Pediatrics.

GEORGE F. TIBBEN, M.D., has opened an office in Washington, Pennsylvania, for the practice of Ophthalmology. He completed a two year tour with the Air Force and spent some time with classmate, Gail Li in Hawaii, before returning to the United States.

SIDNEY M. WOLFE, M.D., 2432 N. 54th Street, Philadelphia 31, Pennsylvania, has completed a tour of duty with the Air Force and expects to open an office in Philadelphia for the practice of Internal Medicine.

1951 TALBOT FORT PARKER, JR., Lt. (jg), M.D., was married to Elizabeth Drummond, daughter of Mr. and Mrs. Frank

1952 JOSE H. AMADEO, M.D., 2015 Locust Street, Philadelphia 3, Pennsylvania, remains at Jefferson in a Surgical "B" residency. He is the father of a little girl, born in March of 1953.

DONALD LAVAN BITTNER, M.D., is a Pathology resident at Stanford University, Stanford, California.

WILLIAM K. CARLILE, JR., M.D., is a Public Health type doctor for a couple of years, at present on the Standing Rock Reservation in North Dakota.

JAMES JOHN FITZPATRICK, JR., M.D., son of Mr. and Mrs. James J. Fitzpatrick of Laurel Avenue, Trenton, New Jersey, was married November 28th, 1953, to Rita Theresa Keffer, daughter of Mr. and Mrs. John Poist Keffer, at Blessed Sacrament Church.

HOWARD W. HANSELL, M.D., can be reached at 246 W. Upsal Street, Philadelphia 19, Pennsylvania, and is at present attending the Graduate School of the University of Pennsylvania.

JAMES MATTHEW HOFFORD, M.D., Jefferson Hospital, 10th and Sansom Streets, Philadelphia, Pennsylvania, has recovered from an attack of infectious hepatitis which knocked him out for the last three months of his internship, and made him pretty rocky for the first couple of months of his medical residency at Jefferson.

JOSEPH HENRY SLOSS, M.D., was last heard from at Gypsy Lane and Goleta Avenue, in Youngstown, Ohio, and was planning a surgical residency there.

1953 ROBERT C. KELLEHER, M.D., — Effective as of March 1, 1954, Dr. Kelleher's address will be Youngstown Hospital, Youngstown, Ohio.

JOHN R. MEREDITH, M.D., Cooper Hospital, 6th and Stevens Streets, Camden, New Jersey, — Mr. and Mrs. Christian A. B. Edwardsen, 2 Linden Avenue, Haddonfield, New Jersey, announce the engagement of their daughter, Miss Janet Christian Edwardsen, to Dr. J. Rodney Meredith of Haverford, Pennsylvania. Miss Edwardsen is a graduate of Jefferson Hospital School of Nursing.
